

Description

Our results seem to suggest that the Zika epidemic tends to occur more often in areas with poor sanitation.
Well, that expression is called "Hedging" in academic writing!
You can learn more about "Hedging" on Enago Academy!
Is that so? We have never heard of this before!
That's a nice way of being confidently uncertain.
That's great. I'll subscribe to the Enago Academy newsletter now!
Visit the Enago Academy website for more useful resources on academic writing
