13:15-14:45	Importance of Peer Review
14:45-15:00	Q&A Session
15:00-15:30	Closing Remarks

Workshop Topics

Topic 1: Academic Publishing—Writing, Submission, and Successful Publication

This presentation is primarily targeted toward researchers who wish to submit their papers to top-notch international journals but face difficulty with the correct usage of language and grammar. In a system where experts from respective fields need to assess the validity, significance, and originality of the described work, it is imperative that the language quality of the articles submitted to such journals is good to avoid rejection at the peer review stage. Unfortunately, many papers that do not satisfy internationally accepted language requirements are rejected by the journal editors themselves and do not even reach the stage of peer review.

After this session, you will have more information about the following:

- Awareness of publishing papers in English and structuring of academic papers
- Importance of [literature review](#) and structuring of reference lists
- Importance of providing pointers while writing content and effectively using academic English in your papers
- Preparing your paper for publication and [journal selection](#)
- Discussion about the [manuscript submission](#) process

Topic 2: Research and Publication Ethics

This presentation will help researchers increase their awareness of the ethical issues related to research and publication, which can affect the publication of research as well as significant discredit among the academic community. In a system where experts from multiple fields are involved in various research collaborations, it is imperative that researchers ensure that each contributor is acknowledged to avoid any subsequent

conflict of interest. This presentation will help researchers increase their awareness of the ethical issues related to research and publication, which can affect the publication of research as well as attract significant discredit from the academic community.

After this session, you will have more information about the following:

- Awareness of different types of research and publication misconduct
- Significance of adherence to ethical guidelines when performing and publishing research
- Understanding the roles of publishers and authors in maintaining research integrity
- Retractions issued by journals because of plagiarism, authorship dispute, or ethical issues
