

Description

Authors like to get their work published. Publishing is a means of disseminating information; sharing ideas, discoveries, and perspectives with a broader audience. However, authors tend to make certain mistakes that lead to the rejection of manuscripts by journals. This post lists the most common errors that lead to manuscript rejection. You can also access a related full-length article from [here](#)

Non-compliance with journal guidelines

Incomplete introduction to the work done

Plagiarism

Deficient methods section

Misleading title

Omitted/partial results

Inaccurate abstract

Inconsistent discussion section
