

Description

Securing grants or having funds to carry out your work is the first requirement of any research project. The process of securing grants is a very competitive, lengthy and challenging process, irrespective of which part of the world you belong to. In order to secure a grant over other competitors, you need to write a flawless application. While this may come easily to experienced researchers, early career ones often face several roadblocks. Through this checklist, we give you a list of considerations that you need to keep in mind while conceptualizing your research problem and drafting your grant application. We hope this checklist helps you secure your next research grant!
