Scholarly publishing requires a deep understanding of its evolving and ethically complex landscape. Researchers and authors must navigate various challenges, including lack of awareness regarding the ethical research and publishing practices. Staying informed about the latest guidelines is essential to prevent inadvertent ethical violations and maintain the integrity of scholarly work.

In this informative webinar, Enago, in collaboration with University of Business and Technology, will explore key ethical principles in scholarly publishing. The session will focus on the latest updates shaping ethical research practices and provide practical strategies for integrating these guidelines into participants' publishing practices.

Take this opportunity to strengthen your publishing expertise and align your work with the highest ethical standards in academia. Register today to secure your spot!

Key Benefits for Attendees

1. Examine the recent cases of violation of research and publication ethics
2. Understand the tenets of academic publishing
3. Learn the author responsibilities in publication ethics
4. Identify the major ethical issues in research
5. Learn effective strategies to prevent research misconduct Understand the ethical use of AI and the key regulatory bodies for ethical compliance

Who Should Attend:

- Graduate and Post-graduate Students
- Doctoral and Post-doctoral Students
- Faculty Members and Mentors
- Researchers
- Institutional Leaders and Research Integrity Officers

About the Speaker:

Radwa El-Khatib
Trainer, Scholarly Publishing & AI for Research at Enago

Radwa El-Khatib is a distinguished expert in scholarly publishing with over five years of experience as a trainer and consultant. Her areas of expertise include the peer review process and its editorial workflow, international STEM publishing, AI applications in scholarly publishing, and research integrity policies and guidelines. Throughout her career, Radwa has empowered countless researchers to navigate the complexities of journal submissions, craft compelling proposals, and successfully publish
