Agenda and Venue

We are glad to announce that **Enago** in collaboration with **Bogor Agricultural University** will be conducting author workshops for early-stage researchers to help increase their awareness of academic publishing.

Enago's workshops will be focused on providing practical advice on the important aspects related to **manuscript preparation** and **journal submission** as well share some insights on important aspects of **research and publication ethics**. The workshops will provide useful tips to authors on how they should write research papers and increase their awareness of the **best ethical practices** while submitting their articles to journals for publication.

These workshops will help the audience increase their awareness of the following:

- Understanding the nuances of academic writing Improving accessibility and
- Awareness of the process of manuscript submission
- Improved usage of English language and grammar
- Better understanding of research and publication misconduct
- Understanding plagiarism and data falsification

At the end of the workshops, all participants will also receive a **Certificate of Participation** issued by Enago.

Workshop Agenda

Time (Local Time)	Topic
10:00 -10:30	Welcome
10:30 -12:00	Topic 1: Academic Publishing—Writing, Submission, and Successful Publication
12:00 -12:15	Q&A Session
12:15 -12:45	Break
12:45 -13:15	Introduction to Enago's Author Services
13:15 -13:30	Q&A Session
13:30 -15:00	Topic 2: Research & Publication Ethics
15:00 -15:15	Q&A Session
15:15 -15:30	Closing Remarks

Venue

Date: 11th July, 2017, Institut Pertanian Bogor

Address: Auditorium Andi Hakim Nasoetion, Andi Hakim Nasoetion Building, 1st floor, IPB Dramaga Campus

Website: <http://ipb.ac.id/>

Email address for workshop inquiries: academy@enago.com

About the Speaker

Dr. Richard de Grijs,
Netherlands

Peking University

Publication and Training

Consultant, [Enago Academy](#)

- A distinguished astrophysicist, consultant, and a publishing expert, Dr. Richard de Grijs has a diverse academic profile and has driven several projects at well-renowned institutions such as the University of Virginia (USA), University of Sheffield (UK) and University of Cambridge (UK).
- At present, he is a Professor of Physics at the Kavli Institute for Astronomy and Astrophysics, Peking University. He is also a Discipline Scientist at the International Space Science Institute in Beijing and the Founding Director of the International Astronomical Union Office of Astronomy for Development, an institution under the International Astronomical Union.
- He is an active member of a number of academic and scientific societies such as the International Astronomical Union (IAU), Institute of Physics (UK), American Astronomical Society, Netherlands Astronomical Society, Royal Astronomical Society, and Asian Council of Science Editors.
- Some of his major achievements include the Exceptional Contribution Award (University of Sheffield, UK), Excellent Performance Award (Peking University, China), “Van Swinderen” Public Outreach Award (the Royal Netherlands Physical Society) and the Selby Award (for excellence in science-the Australian Academy of Science).
- He currently is a peer reviewer for *Nature*, *Science*, *Monthly Notices of the Royal Astronomical Society*, *Astrophysical Journal*, and *Astrophysics and Space Science*, as well as for book (series) proposals submitted to Wiley Academic Publishers and CRC Press. In addition to his role at the Kavli Institute for Astronomy and Astrophysics, Peking University, he is also currently the Deputy Editor of *Astrophysical Journal Letters*.

Workshop Brief

Topic 1: Academic Publishing—Writing, Submission, and Successful Publication

In This presentation is primarily targeted toward researchers who wish to submit their papers to top-notch international journals but face difficulty with the correct usage of language and grammar. In a system where experts from respective fields need to assess the validity, significance, and originality of the described work, it is imperative that the language quality of the articles submitted to such journals is good to avoid rejection at the peer review stage. Unfortunately, many papers that do not satisfy internationally accepted language requirements are rejected by the journal editors themselves and do not even reach the stage of peer review.

After this session, you will have more information about the following:

- Awareness of publishing papers in English and structuring of academic papers
- Importance of literature review and structuring of reference lists
- Importance of providing pointers while writing content and effectively using academic English in your papers
- Preparing your paper for publication and journal selection
- Discussion about the manuscript submission process

Topic 2: Research and Publication Ethics

This presentation will help researchers increase their awareness of the ethical issues related to research and publication, which can affect the publication of research as well as significant discredit among the academic community. In a system where experts from multiple fields are involved in various research collaborations, it is imperative that researchers ensure that each contributor is acknowledged to avoid any subsequent conflict of interest. This presentation will help researchers increase their awareness of the ethical issues related to research and publication, which can affect the publication of research as well as attract significant discredit from the academic community.

After this session, you will have more information about the following:

- Awareness of different types of research and publication misconduct
- Significance of adherence to ethical guidelines when performing and publishing research
- Understanding the roles of publishers and authors in maintaining research integrity
- Retractions issued by journals because of plagiarism, authorship dispute, or ethical issues
