

## Description

As the scholarly world undergoes ongoing transformation due to technological advancements, the research and publishing processes are experiencing an unprecedented magnitude of change. From open science initiatives and collaborative research practices tearing down the barriers of idea exchange to adapting new emerging peer review models, the “Future of Publishing” appears promising.

So, gear up, scholarly community! The ninth edition of [Peer Review Week](#) (PRW) is almost here, and Enago — a proud member of the steering committee is committed to exploring this year’s PRW theme: “Peer Review and the Future of Publishing”. We aim to delve into how peer review is shaping the future of the publishing industry, fostering innovation, and driving positive changes.

**Mark Your Calendars Now!**
