

Description

It is important for researchers to publish their research work in high-impact and high-quality peer-reviewed journals. The [SCImago Journal & Country Rank](#) website can prove beneficial to all because it is a one-stop place to obtain detailed information on journal rankings. Developed by SCImago using the Google PageRank™ algorithm, the website retrieves information for various indicators from the Scopus database. It is FREE, easily accessible, publicly available, and it makes finding and understanding journal rankings easy! In this infographic, we share the top 10 tips on how this website can assist you in finding relevant journals for your publication requirements.
