Watch Now

Conducting research work seamlessly hinges on the best laboratory management practices followed in a research laboratory. Setting project timelines, reviewing, managing grants and inventories, updating process documentation and improving workflow, collecting and managing data are a few critical duties to be performed expeditiously for running a lab successfully. With the aim to help new and established research leaders understand their roles and responsibilities and acquire necessary skills, [Enago](#) in collaboration with [LabArchives](#)—the leading research data management platform—conducted a practical training session.

Through this webinar, researchers will have a better understanding of the following:

- How to ensure a healthier research lab environment
- How to become a good lab manager
- Strategies to manage lab inventories and research grants
- Guidelines for responsible scientific data management
- An overview of good laboratory practice (GLP) in the pandemic

About LabArchives

LabArchives is a suite of SaaS applications dedicated to better science used by more than 590,000 scientists to manage & protect research data, inventories and laboratory resources. LabArchives products help scientists document their research data, prove and protect discovery, and collaborate securely. Used in more than 500 of the world's leading research academic, commercial and government research organizations and thousands of lab courses, LabArchives is the leading research data management SaaS application platform. For more information, visit <https://blog.labarchives.com/> and <https://www.labarchives.com>.

About the Speakers

Head Scientist at Booz Allen Hamilton

Dr. Huff is a published author with 20+ years of experience in

manifold scientific fields including big-data analytics, machine learning (AI), algorithm development, laboratory management, and informatics research. After completing his Ph.D. from the University of Houston (USA), Dr. Huff continued his research pursuit as a Research Biological Scientist (Bioinformatics) at the U.S.A.F. Research Laboratory followed by his appointment at Noblis, Inc. To date, Dr. Huff has published several research papers in high-ranking journals and is also a recipient of 5 grants and multiple awards and scholarships. As a Publication and Training Consultant at Enago Academy, Dr. Huff provides guidance to research scholars for a successful academic career.

**Marie Linvill, Vice President, Product Management & Customer Success,
LabArchives**

Marie leads the teams dedicated to successful experience with

LabArchives' applications, from individual researchers to Research Integrity Officers. This company-wide dedication to our users informs and is integral to the evolution of our product. Before joining LabArchives, Marie served as Product Manager and Director of Content Integration at ProQuest where she managed the launch of research funding solution, Pivot, and the researcher discovery and collaboration tool, Scholar Universe. In addition to cloud-based solutions for researchers, worked as Senior Editor for various academic publishers, including Little, Brown and Company and Singular Publishing Group.
