# MEASURING RESEARCH IMPACT: CITATION METRICS

A quantitative measure of impact, quality, and significance of published research

default watermark

## 2 Immediacy Index

Immediacy Index is the average number of times an article is cited in the first year of publication. This metric indicates how quickly articles are cited.

1\*

## Journal Impact Factor

IF is the average number of citations of an article, a review, or a proceeding published in a journal in the last 2 years.

3

## 5-year Impact Factor

5-year IF is the average number of citations of an article, a review, or a proceeding published

4

## Eigenfactor

This metric is based on weighted citations in a JCR year to papers published in the last 5 years. For calculating Eigenfactor, greater
