Currently, he is the President of ISMTE and part of the Management Committee at [PEERE](#) as well as the working group for data sharing and testing.

About the Interview

In this interview series, we will take you through Michael's journey in the publishing industry and the various challenges of the current system as well as the developments that are taking place to improve the peer review system. Michael also shares some key issues faced by peer reviewers and how it is becoming increasingly important to have a defined training program for peer reviewers. In addition, Michael discusses his role at PEERE and the primary objective behind this initiative.

In this interview, we also discuss the increase in the number of retractions as well the future challenges for the academic publishing industry and the current system of peer review management. Michael shares his views on how authors should overcome rejection notices issues by journals as well as the need for more number of authors to consider peer reviewing on a regular basis.

The screenshot shows the enago Read platform. At the top, there is a navigation bar with the 'enago Read' logo and the URL 'read.enago.com'. Below the navigation bar, the main title 'All In One AI-Powered Reading Assistant' is displayed in large, bold, white text. Underneath the title, a subtitle reads 'A reading space to ideate, create knowledge, and collaborate on research'. To the right of the main content area, there is a 'Your Research Paper' section. This section contains a text box with the text 'Artificial Intelligence (AI), Both C-P and AI have strong design research; reflect our opinion, determine giving animal friends'. Below this text box is a 'Copilot' section with a sub-section titled 'Copilot answers' containing the text 'The test discusses decision-making and designing processes, and how they should support the user in solving the unique issue of problem solving and planning in these processes, and how they can be supported by various techniques'. At the bottom of the 'Copilot' section, there is a 'Type questions' input field with the placeholder 'Type your question here...'.
