Watch Now

This webinar focuses on the importance of e-learning courses in simplifying the publication journey of a researcher. Although e-learning is not a new concept, its usefulness in [academic publishing](#) is yet to be explored by the researchers. In this session, we will discuss how researchers can take the maximum benefit of the available e-learning courses, specific for the different stages of [the publishing process](#) and enhance their knowledge.

Researchers will learn:

- Overview of e-Learning and the general structure of e-Learning platforms: how do they work?

- How researchers can unlock the potential of [e-Learning courses](#) for their own interest?
- E-Learning courses available in research & publishing
- [Enago Learn](#): Useful e-Learning platform designed by industry experts

About the Speaker

Ishan Dave

BELS-certified Editor and Publication Consultant, Enago

- With 7+ years of experience in the publishing industry, Ishan has been closely working with the ESL researchers to help them get published in international peer-reviewed journals.
- As a Senior Editor, he has also helped establish editorial teams and mentored team members on several technical and language-related concepts related to editing.
- At Enago, he has worked closely with various pre- and post-publication divisions of publishers and journals and assisted them in resolving publication-related challenges faced by their teams.
- Ishan has experience in organizing and conducting author workshops focusing on various author training initiatives that Enago pursues with its partner universities and clients.
- Ishan has also been a part of the core team that has developed Enago Learn, a comprehensive e-learning program on academic writing and publishing.
- In his current role, Ishan provides editorial services to individual authors, journals, and publishers. He is also working with book publishers in developing Chemistry-related content.
