Watch Now

In this webinar, AI experts from Enago discuss strategies to **improve your academic writing**. Our aim with the session is to guide researchers in **choosing between AI assistance and content generation** for [academic publishing](#) workflows. We will offer best practices for the responsible utilization of AI tools, exploring their potential benefits and limitations for ensuring **research integrity**.

Who Should Attend This Session?

- Graduate students
- Early-stage researchers
- Doctoral & postdoctoral students
- Established researchers and academicians
- Editors
- Peer Reviewers

Background

AI has already transformed the world of academic discourse. From refining academic text to generating novel research ideas, AI has become a powerful ally for researchers and authors, promising increased productivity and efficiency. However, effectively leveraging AI requires following certain best practices.

The session focuses on the following topics:

- AI's rising role in academic writing workflows
- The difference between AI assistance and content generation
- Benefits of AI tools and related challenges
- Best practices for using AI tools in academic writing
- Live demonstration: Enhancing academic writing with [Trinka AI writing assistant](#)

About the speakers

Dr. Krishna Kumar Venkitachalam

Innovation Officer at Enago

Dr. KK is an orthopedic surgeon by qualification with 15+ years of experience in academic publishing under various roles, including [manuscript editing](#), manuscript writing, editor training, author education, language technology solutions, and innovation. As an editor/writer, he has helped hundreds of authors/researchers publish their research in leading journals worldwide. Being passionate about science communication and teaching, he has conducted several interactive training programs and author workshops. These included touring workshops in India and internationally along with online workshops in collaboration with universities and publishers. With his background in academia, experience in science communication experience, and affinity towards technological solutions, he plays a role as a consultant in integration of new technologies to publishing platforms and for designing customized publication solutions for institutions and publishers.

Piyush Agarwal

Lead Product Manager at Crimson AI

Piyush has 12 years of experience in designing and building cutting-edge digital products in education, technology, and academic publishing industries. Over the period of last decade, as a product manager, he has worked with large corporates, SMEs, start-ups, and start-up accelerator, adding immense value to their businesses. As a developer turn product manager, he uniquely stands at the intersection of business and technology with experience in both Corporate and start-up word. Piyush is Lead Product Manager at Crimson and heads the product and design teams of [Trinka.ai](https://trinka.ai) and Enago Read. Piyush is focused on leveraging the power of AI to solve the researchers' problems and build a resilient tech ecosystem for the entire academic publishing industry.
