Thereafter, click “**Save & Continue**” at the bottom of the webpage.

### Share your research data (Optional)

In this section, you can make your research data available with your article. Sharing research data helps other researchers evaluate your findings, and increases trust in your article. Research data can include, (but is not limited to): raw data, processed data, software, algorithms, protocols, methods and materials.

Please cite your research data within your article; consult your journal's [Guide for Authors](#) for instructions.

The following options are available:

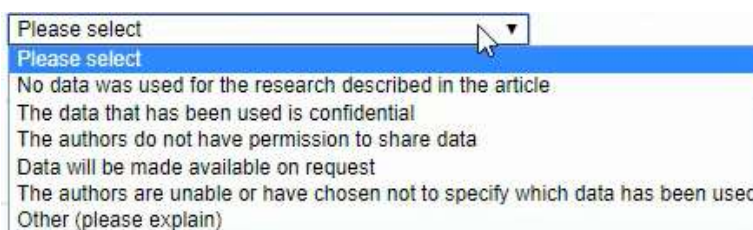

**Link research data**   If your research data is already hosted in a repository, you can link it to your article here. [Learn more](#)

**Upload research data**   Upload your research data to the data repository, [Mendeley Data](#), where it will be published and citable, and linked from your article. [Learn more](#)

The button opens a new window and will not interfere with your submission, so uploading will continue in the background.
